Education

Props & Costumes: One child or more. 20-30 mins playtime.

Equipment:

- A range of age appropriate props and costumes, suitable for creating original characters.

What to do:

Ask your child(ren) to either select a range of items from a fancy-dress box or provide them with a range of appropriate items from around the house that they're allowed to use.

Ask the children to create a character related to one of the attached themes or topics using the costumes and props.

For example:

- Goggles helps them create an astronaut related to Space

-Scarf helps them create an old lady taking a walk in a forest

Now, create a short scene where the character(s) they have just created might meet. Ask them to think about what they might discuss and where the scene might take place. Together, develop and rehearse the scene.

Themes/topics-

Space
Holidays
Party
Beach
Playground
Farm
Zoo
Forest
